

1. Choose a box
(Smaller = Less time and Paper /
Bigger = Slower but nicer photos)

2. Mark an X on the bottom of the Box
(Not on the LID)

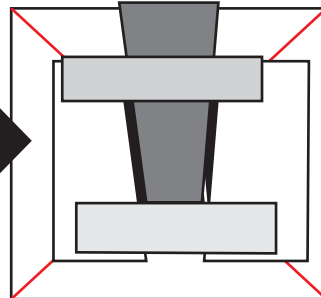

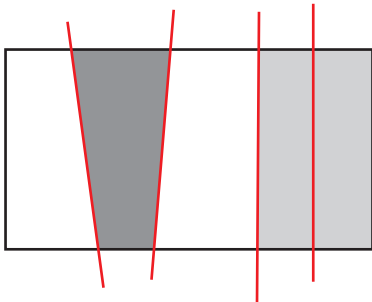

3. Cut out a Square, the size of a small coin

4. Get an aluminum plate WITH A HOLE
and tape over middle of opening

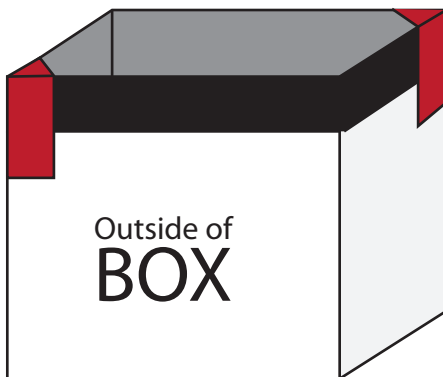

5. Put tape around the top of the box,
so lid fits tightly, but don't bend the box

6. Build a Shutter **4 Cuts**
- 3 Strips for the shutter
- 2 Strips to hold it down

Glue to the box with white glue
(Tape will come off outside!)

7. Make a film holder

Small Boxes:

Put tape over 2 corners

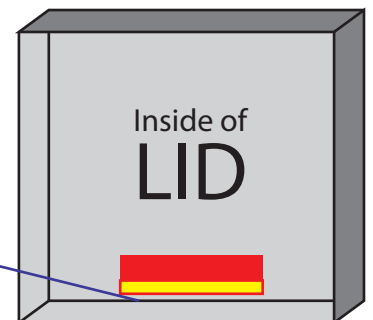

OR:

Larger Boxes

Glue in a small piece of board

Only Glue half

Leave room for box to close

Write your name on the OUTSIDE of both the lid and box

I will paint the box over night, and you have a Camera!
